

RU 2020 GRG Student's Profile

Anyait Ritah

University: Makerere University

Program: MSc. in Animal Sciences

GRG Project: Developing equations for predicting feed intake by pastoral/agro-pastoral livestock: tackling uncertainty in Uganda's national enteric methane emissions inventory.

Research Focus: Estimating Enteric Methane emission factors for Pastoral and Agro-pastoral cattle in Uganda”.

About me:

I enjoy socializing, sharing experiences, and working with rural communities, because I feel like there is more to them than meets the eye. I am very curious, hence my passion for research work. I am so grateful for the opportunity of working with RUFORUM-GRG. I am motivated and believe that with this training I will ably contribute to the improvement of enteric methane inventorying, which will help in devising proper mitigation strategies for greenhouse gases in both my country and the world at large.

My favorite quote:

“Aim for the moon. If you miss, you may hit a star”-W. CLEMENT STONE
