

## RU 2020 GRG Student's Profile

### **Elizabeth Ahumuza**

**University:** Makerere University

**Program:** MSc. Environment and Natural Resources Management

**GRG Project:** Effects of changes in Land Use/Cover and Climate on Carbon Stocks in selected Agro-Ecological Zones of Uganda

**Research Focus:** Land Use and Soil Organic carbon stock dynamics over different Agro-ecological zones in the Lake Kyoga catchment area

**About me:** I enjoy reading about current affairs in relation to climate change and travelling as it exposes one to different cultures and environments. I am an individual that enjoys planning and pays attention to details. I am passionate about climate action i.e. adaptation and mitigation as it provides solutions to real time problems hence an improvement of people's livelihoods and sustainable development. I have experience in building resilience in Agricultural systems; Greenhouse gas inventories; development, validation, and upscaling of climate-smart agricultural technologies, as well as crop and climate modelling.

**My favourite quote:**

“Small acts when multiplied by millions of people, can transform the world” – Howard Zinn
