

RU 2020 GRG Student's Profile

Ithe Jean-Claude Mwanga Mwanga

University: Universite Evangelique en Afrique, DRC

Program: M.Sc. in Agronomic Sciences and Environment

GRG Project: Improving animal productivity by developing local food resources in South Kivu, eastern Democratic Republic of Congo.

Research Focus: Characterization of natural pastures in South Kivu: typology, fodder value and Physico-chemical properties of the soil

About me: I am passionate about green landscapes and sciences. I am highly motivated to contribute to the knowledge and diversity of green landscapes. I enjoy listening to music and outdoor activities, and in my spare time, I play football. I enjoy exploring, adventure, interacting with international audiences and appreciate the ambience of cultural diversity. I am privileged to have worked with a dynamic group under this project.

My favourite quote:

“A person who has never made mistakes has never innovated” - *Albert Einstein*
