

TOPIC "Education from foundations and skills to advancements in Science, Technology and Innovation: Considering fundamentals for transforming Africa"

DISCUSSION ISSUES

- How may Africa ensure a meaningful and seamless transition and throughput across the educational value chain-from primary school, secondary school, tertiary to university?
- How may Africa achieve greater efficiency and better outcomes in building skills for today's workforce and tomorrow's labour market that delivers both productivity growth and improved livelihoods?
- How may Africa's public and private education institutions play a greater role in driving Science, Technology and Innovation development?
- What policy and financing modalities are needed to enable the African education sector better respond to the current and emerging needs especially the aftermath of the COVID 19 pandemic?
- What initiatives are needed to strengthen higher education, Science, Technology and Innovation in Africa?
