Background

In collaboration with the Governments of Malawi and Mozambique, the World Bank Group (WBG), Inter-University Council for East Africa (IUCEA) and Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) are jointly implementing six African Higher Education Centers of Excellence Additional Financing for strengthening Higher Agricultural Education in Africa. The main objective is to strengthen linkages between universities in participating countries and regional agricultural sector needs through strengthening (i) agri-food systems related education and training enhanced with trans-disciplinary approaches and applied research; (ii) university linkages to the regional agricultural sector - its priorities, needs and stakeholders; and (iii) university partnership with private and public entities related to agri-food systems both within and outside the region. The six ACE II AF (one in Mozambique and five in Malawi) are to build capacity in their respective countries and Africa at large.

It is against this background that a round table discussion is organized to explore possibility of partnership for the ACE II AF building capacity for the less endowed universities in Africa.

Objective of the webinar

This Round Table Discussion will bring together Ministers from Zimbabwe, DR Congo, Liberia and South Sudan and their counterpart from Malawi and Mozambique. The objective of the round
