

## RU 2020 GRG Student's Profile

### **Gaius Sègbégnon Vihowanou**

**University:** Abomey-Calavi, Benin

**Program:** M.Sc. in Animal Production

**GRG Project:** Relationship between cattle voluntary feed intake on pasture and enteric methane emission in the Sudanian zone of West Africa

**Research Focus:** Estimating and comparing enteric methane emissions from different peri-urban cattle farming in South Benin

**About me:** I am passionate about issues related to farm animals. My goal is to contribute through scientific research to mitigating greenhouse gas emissions caused by cattle. Nowadays, animal husbandry must be able to feed an increasingly growing population while limiting the harmful consequences on the environment. I am passionate about discoveries and travel. I like to read and watch television documentaries. I also like to follow football matches, especially Barcelona FC matches

#### **My favourite quote:**

“Whatever the mind can conceive and believe, the mind can achieve without harming its neighbour” *Napoleon Hill.*
